Why Select Barbich Hooper King Dill Hoffman as Your CPA?

- » Our dedication to a high level of personal service is a cornerstone in the firm's statement of philosophy.
- » We take a proprietary interest in the success of our clients. It is this guiding philosophy, and the quality of our services, that provide peace of mind, rare in today's complex world.
- » When possible, clients see and speak with the same professional year after year on their engagement.
- » The firm uses a timing schedule that is monitored for work completion within the agreed upon time frames. This schedule is preliminarily reviewed with the client for understanding and agreement, and then followed for compliance.
- » The excellent reputation of the firm in the community, among peers, and with regulatory bodies was one of the principal reasons cited in our Client Survey for doing business with the firm.
- » The firm voluntarily submits to a peer review of technical performance in the accounting and auditing areas of its practice. The most recent review resulted in another unqualified opinion as to quality work and procedures.
- » All professional staff members obtain a minimum of 80 hours every 2 years of continuing professional education.
- » Professionals from our firm have accepted leadership positions in the AICPA and the California Society of Certified Public Accountants. This has the dual benefit of keeping the firm at the forefront of regulatory changes that may be of benefit to clients, and of maintaining access to a national and international network.
- » We are members of Geneva Group International (www.ggi.com), a worldwide alliance of well-established and experienced accounting, consulting and law firms that are committed to providing clients with specialist solutions for their international business requirements.
- » We are participants in CAMICO, a mutual insurance company providing us with liability insurance coverage of \$5 million.
